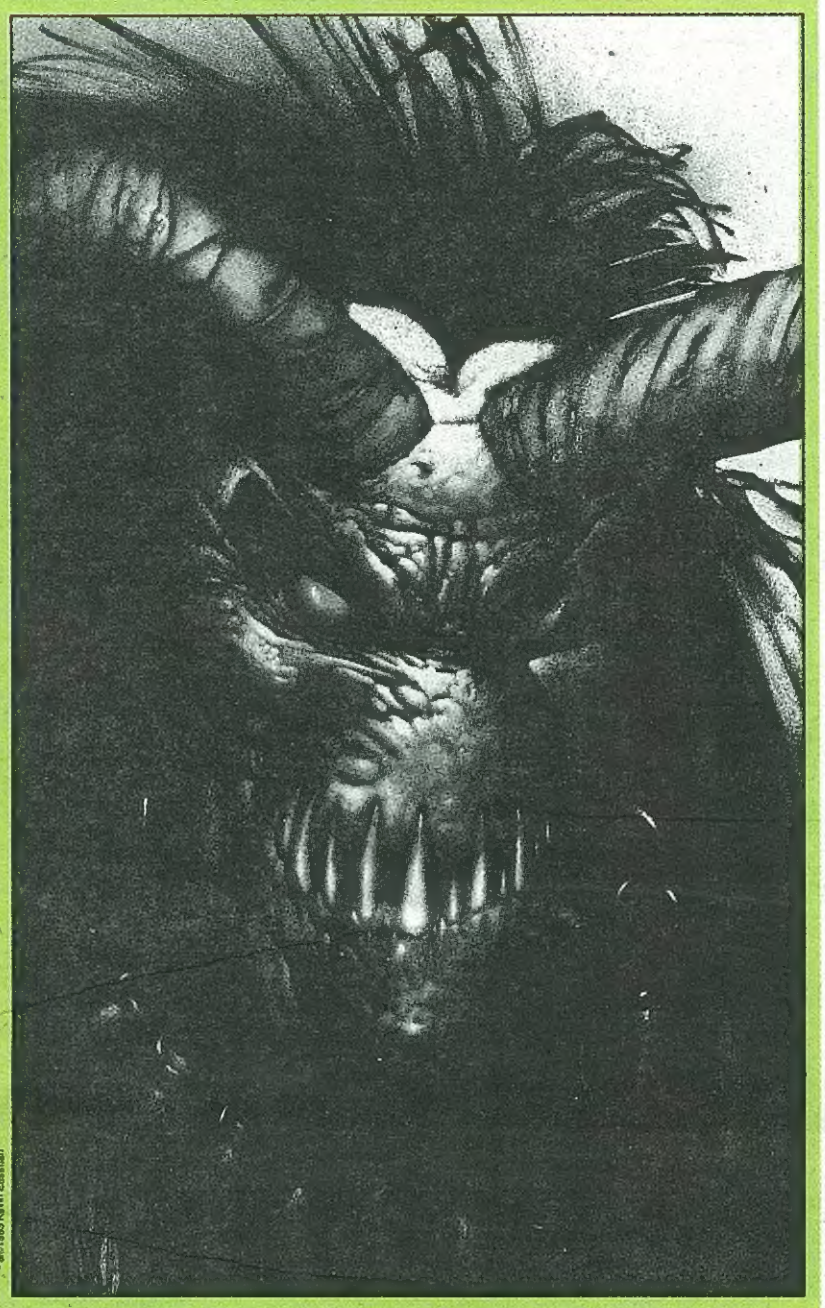
Eastman, Bisley Turn Up the Heat On Melting Pot



Creation is a demanding art—particularly when what you're creating is not a work of art, but a world. Of course, the end result of the work can be highly dependent on the materials that go into it. When a near-omnipotent celestial being creates his own world in a secluded corner of the cosmos where no native life exists, he populates it with those who will most likely not be missed—the flotsam and jetsam of the universe, the outcasts of a thousand thousand planets. The result is Eden, a world whose creation is so discordant that chaos is the norm and survival is the prime directive.

The world is ironically referred to as Eden, a jigsaw world that is truly home to none of the species that inhabit it. But one being is determined to reshape Eden along new lines... to rule the world, to control the chaos, and to give it a direction. In order to carry out his goal, he wants to gain possession of a particularly important area on Eden: the Holy Land. In doing so, though, will he bring an old prophecy to life?...

Melting Pot, a new series by Kevin Eastman and Simon Bisley, is a work that has been several years in the planning. Three years ago, Eastman and Bryan Talbot first released ***The Melting Pot Sketchbook***, a sneak peek into a work in progress; in the years since then, Talbot has moved on, and Eastman has been joined by acclaimed artist Simon Bisley, whose dynamic and sometimes bizarre artwork on such books as ***Lobo*** and ***Judgment on Gotham*** has made him a major name in comics. Both Eastman and Bisley are producing the artwork for the four-issue series.

Melting Pot, a full-color limited series from Kitchen Sink, debuts in October; each issue is priced at $2.95.

Byrne's Keeping the Faith

John Byrne fans needn't be concerned when they discover that there's no regular issue of ***Next Men*** slated for October release; Byrne hasn't abandoned his monthly schedule. Instead, Byrne is hard at work on a ***Next Men*** four issue series, ***Faith,*** that is a portent of things to come for the book. According to Dark Horse, "Beginning with this story arc, the Next men will no be coming to you in the four-issue miniseries format." All your favorite characters are still here, and the offbeat world of Dollar Comics still plays an important part in the storyline. In fact, in ***John Byrne's Next Men: Faith #1,*** Dr. Trogg and the Blue Dahlia, characters from the Dollar Comics line, become real-life crimefighters on the streets of Manhattan. The Next Men are pretty busy with their own problems, though: they're making a jailbreak, while Tommy escapes from the sanitarium. ***John Byrne's Next Men: Faith #1,*** a $2.50 comic, is scheduled for October 14th release.

If you want to enhance your collection with a real Next Men collectible, then you'll have to have ***John Byrne's Jasmine Figurine.*** This 6" tall, fully painted cold-cast porcelain figurine is designed and sculpted by John Byrne himself, so it fully captures the vibrancy of the comic book character as Byrne depicts her. ***John Byrne's Jasmine Figurine***, priced at $100, is scheduled for early November release.

Defiant Sheds Some Light on Dark Dominion

Most people have enough trouble dealing with the trials of one all-too-real world.. but for Michael Alexander, the trouble is double, for he is aware of two worlds. In addition to our own reality, Alexander also sees a world that surrounds us all but is invisible to the naked eye. This dark world, also known as the Quantum Substratum, is the home of evils that most people know only in nightmares... but for Alexander, it's a second reality.

Dark Dominion, the second title from Jim Shooter's new Defiant Comics, brings a touch of the mystical to the Defiant Universe. Shooter is writing the series, which will follow Alexander's heroic struggle to save New York—and the rest of the world—from those who would transform it into a Dark Dominion; Steve Ditko and Steve Leialoha join forces to illustrate the first issue, while Adam Pollina takes over the art honors with the second issue. ***Dark Dominion #1,*** a $2.95 comic, is scheduled for October release.

Two Faces For *Two-Face Strikes Twice*

Two-Face tenure as a member of Batman's rogues' gallery goes back over five decades—and a new two-issue limited series pays homage to the dichotomous villain with an unusual flip-book two-story design that captures the essence of Two-Face in two very different eras.

Batman: Two-Face Strikes Twice isn't a single story arc; instead, it features a Golden Age pastiche and a contemporary Dark Knight adventure, each chronicling a confrontation between Batman and Two-Face as written by Mike W. Barr. The Golden Age homage, illustrated by Joe Staton, is designed to capture the look of the Golden Age Dick Sprang Batman; the story depicts one of the earliest confrontations between Batman and Two-Face. As an added treat, DC has enticed Dick Sprang himself to supply the new covers for the Golden Age-homage side of this flip book.

The contemporary side kicks off with a similarly posed cover that is rendered in a modern style by artist Daerick Gross. Gross also paints the interiors for the contemporary half of the book, which features a present-day sequel to the Golden Age storyline.

Batman: Two-Face Strikes Twice #1 is scheduled for October 28th release; the second half of the series follows two weeks later, on November 11th. Each book is priced at $4.95.

Six Pack Plus One

While the emphasis of ***Nomad*** is on Jack Monroe's odyssey across America, Nomad's adventures occasionally venture into the realm of the superhero—as is the case with ***Nomad #20***. Straight from the pages of Cable, the Six Pack drop in on Nomad, where they want to recover a prototype NASA system that they'd intended to steal—if only Nomad had beaten them to it! So is it thought to coordinate a guest appearance by Cable's supporting cast? Not when both books are written by the one and only *Fabian Nicieza*, it isn't! ***Nomad #20,*** illustrated by *Rick Mays* and *Greg Adams*, is scheduled for October 7th release.

Cybeforce Exceeds Its Limits

Marc and Eric Silvestri's ***Cyberforce,*** one of the premiere miniseries of Image's first year, is graduating from limited series to ongoing status beginning this fall. In ***Cyberforce #1,*** the Silvestri pave the way for one of the most demanded of all Image crossovers: Cyberforce and WildCATs. Fans will also discover the fate of the ultimate sibling rivals, Verlocity and Ballistic. ***Cyberforce #1,*** a $1.95 comic that kicks off the monthly ongoing series, is scheduled for October release.

If He Only Had a Brain...

Cyborg certainly isn't the hero that he used to be; while he's physically more or less intact, he remains brain-dead, with virtually no hope of recovery. Notice that key word "virtually," though; while no one on Earth can seem to help restore Cyborg to his normal state, an alien planet of cybernetic lifeforms might fare somewhat better. ***The New Titans #104,*** the first part of a biweekly story arc entitled "Terminus: The Face of Cyborg," sends Cyborg into space, followed by the New Titans and Team Titan Prester John, who wields the power to save the cybernetic lifeforms... and Cyborg. ***New Titans #104,*** an October 21st release, is written by Marv Wolfman and illustrated by guest artists *Nick Napolitano* and *Steve George*.

Comic Fans Can Tear Into Demolition Man

Demolition Man, the upcoming Warner Bros. film starring *Sylvester Stallone* and *Wesley Snipes*, is nearing completion despite its many problems with budget overruns and delays—but the same special effects that force a film budget into overdrive don't add anything to the cost of the comic book, which is why DC's adaptation of the movie is right on schedule and right on budget. Written by *Gary Cohn* and illustrated by *Rod Whigham* and *Dick Giordano*, ***Demolition Man*** is the story of a policeman, John Spartan, who is put into suspended animation for using excessive force to capture his enemy, the mass murderer Simon Phoenix. When Phoenix is released from suspended animation and begins his reign of terror once again, Spartan is brought back to life—because he's the only man who ever stopped Phoenix, and the world hopes he can do it again.

Demolition Man #1, the $1.75 first issue of a four-issue limited series adapting the film, is scheduled for October 7th release. (If the film is delayed further, DC advises readers that its comic book adaptation will also be delayed.)

Sachs & Violens Spreads to Trading Cards

Sachs & Violens, the new series created by *Peter David* and *George Perez*, branches out from comics to trading cards this fall. That's when Comic Images unveils its ***Sachs & Violens Trading Cards,*** a new 90-card series featuring original art, facts on the characters and the creators, and more. Comic Images is also adding six prism cards to the mix, randomly inserted into the ten-card packs at an approximate ratio of three per box. ***Sachs & Violens Trading Cards,*** a November release, are priced at $1 per pack; check with the friendly folks at your local comic shop if you want to reserve an entire box... and tell 'em that ***CSN*** sent you, okay?...

X-O Marks the Spot For the Armorines

If you've been one of the unfortunate fans who missed out on the first appearances of such now-popular Valiant heroes as Ivar, Turok, or Ninjak, then take our advice: you don't want to pass up ***X-O Manowar #25*** when it hits the stands in November.

X-O #25 is two books in one; not only does it feature a full-length story by *Gonzales, Karounos,* and *Ryder* that pits X-O against the Armorines, an action force assembled by the government to gain control of the X-O armor, but it also includes a special 16-page ***Armorines #0*** by *Jorge Gonzales* and *Jim Caliafore* that reveals the origin of Valiant's newest team. ***X-O Manowar #25,*** a $3.50 comic, is scheduled for late November release.

Homeward Bound

In the aftermath of the events depicted in ***Wolverine #75***, a battered and shaken Logan heads home—but he's not ready for company when he gets there. Company is just what he finds, though, in the form of Alpha Flight, who is waiting for his return to Canada. What do they want with Wolverine? You'll have to wait until October 14th to find out; that's when Larry Hama and Adam Kubert fill in the details in ***Wolverine #76***.

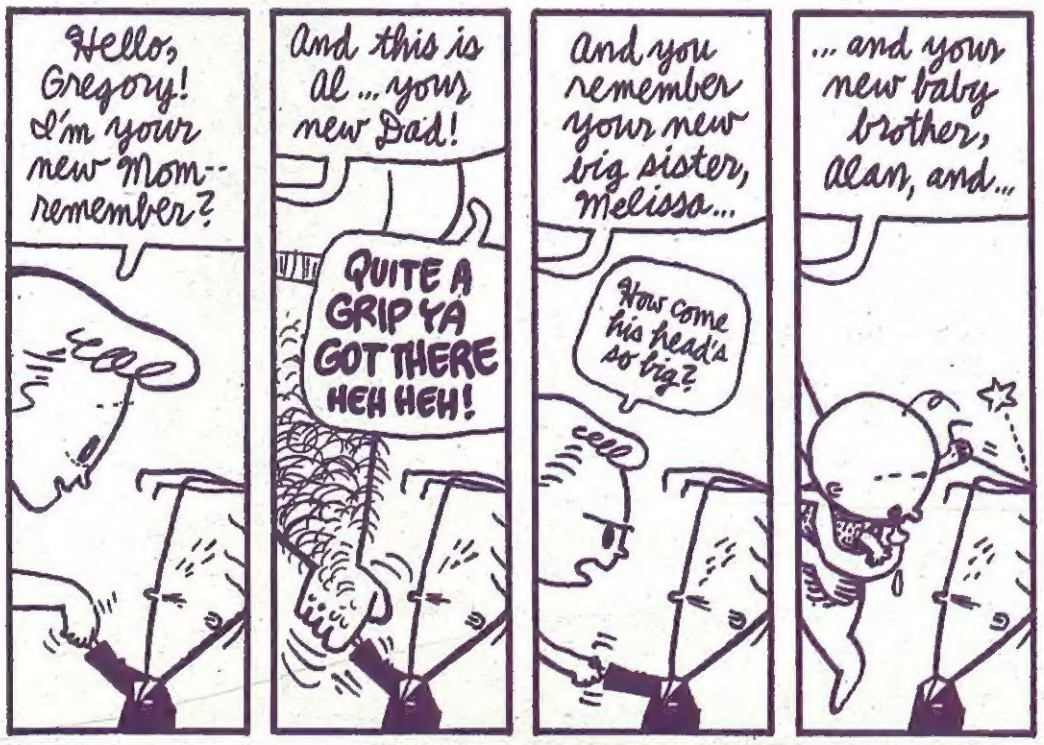
Spider-Man Goes Against the Grain

Forget about going to the beach—if it's sand you want, just pick up ***Web of Spider-Man #107.*** This issue introduces Sandstorm, a new sandy adversary for Spidey. If that isn't enough sand to suit you, then maybe the guest appearance of both Sandman and Quicksand will bring back memories of a summer vacation in Florida. ***Web of Spider-Man #107,*** an October 7th release, is written by *Terry Kavanagh* and illustrated by *Alex Saviuk* and *Stephen Baskerville*.

Gregory Adopted? Ub-Solutely!

Gregory, *Marc Hempel*'s loveable little guy who has spent most of his life in an asylum, moves into a new home in ***Gregory IV: Fat Boy***... but *new* doesn't necessarily mean *better*, as Gregory and his readers soon discover. Gregory's new adoptive home puts him under the same roof as a "typical American family," but it soon becomes evident that Gregory is the most normal of the bunch—a bunch comprised of a domineering father, a doting mother, a "smarty-pants" sister, an affectionate cat, and an overweight, emotionally disturbed big brother who is determined to kick Gregory's butt. About the only character on Gregory's side is Herman Vermin, his old friend from the asylum days.

Gregory IV: Fat Boy not only marks a turning point in Gregory's life, it also marks the end—at least for now— of the Gregory series. Hempel is giving the little guy time off for good behavior after the release of this 64-page volume. ***Gregory IV: Fat Boy***, a $4.95 prestige-format book, is scheduled for October 28th release.



Hello, Gregory! I'm your new Mom-- remember?
And this is Al ... your new Dad!
QUITE A GRIP YA GOT THERE HEH HEH!
And you remember your new big sister, Melissa...
How come his head's so big?
... and your new baby brother, Alan, and...

Uh oh... that Spawn-Valeria crossover scheduled for ***Valeria the She-Bat #s 3 & 4*** has been unscheduled; while the basic storyline is likely to appear in a later issue of Valeria, it will **not** include Spawn... Look for Spider-Man and new X-Men cards from Fleer next year... Image will unveil several new titles and characters in their upcoming Cosmic Images line, due for early '94 debut... Jim Starlin and other top comic artists are preparing an original calendar for late '93 release... Valiant is preparing a special trade paperback reprinting some of those hard-to-find first appearances of characters who went on to become important in the Valiant Universe... In spite of the rumors, insiders say don't write off Mr. Fantastic, Captain America, or the Punisher quite yet...

Warp Catches a Wave

Warp Graphics, well known for their three ***Elfquest*** titles, is expanding the Elfquest mythos with a fourth ongoing title, ***WaveDancers,*** that chronicles the exploits of a previously unknown group of aquatic elves. According to *Catherine Kouns* of Warp Graphics, "The concept of 'sea elves' is one long held dear by fans of Elfquest. ***WaveDancers*** indulges this concept with a lush art style and a rich story that weaves suspense, comedy, and adventure into an ongoing quest and struggle for power between two factions within the ocean-dwelling group. ***WaveDancers*** is drawn and colored by Australian born Disney animator *Jozef Szekeres*, with plots and scripts provided by *Bruce Love* and *Julie Ditrich*, both of Australia."

"This is very exciting stuff for us," *Richard Pini* said. "Jozef told us that one of the reasons he went into animation was that he read ***Elfquest.*** We're delighted and honored that he and his cohorts have found a corner of the World of Two Moons fascinating enough to want to contribute their considerable talents. ***WaveDancers*** if a beautiful, sensuous work." ***WaveDancers #1*** will premiere in December.
